## ABOUT JOHNTOOLS

Founded in 1996, Hangzhou John Hardware Tools Co., Ltd. is a leading manufacturer and exporter of premium manual tile cutters and tiling tools.

With 30 years of innovative R&D and efficient production capabilities, John Tools has become a global leader in the tiling tools industry. The company's tile cutting machines have ranked #1 in worldwide sales for 10 consecutive years, serving customers in over 130 countries.

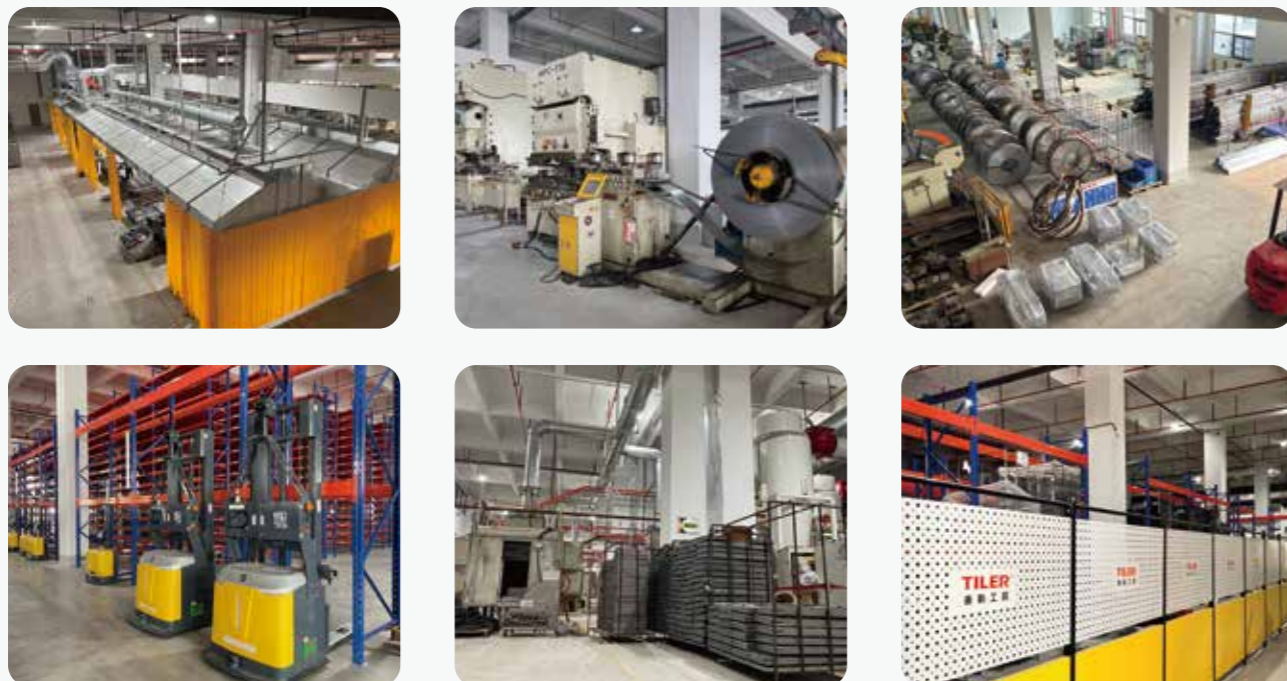

Housed in a modern 40,000 sq.m. factory and backed by a team of 250+ skilled professionals, John Tools is a famous export enterprise in Zhejiang Province. The company holds dozens of patents and trademarks, and is certified by Germany's GS and ISO9001 standards - a testament to its engineering excellence.

John Tools provides world-class OEM/ODM services, offering customers a wide range of customizable product models and package designs. Committed to "honesty, pragmatism, innovation, and mutual benefit," the company promises superior quality, competitive pricing, prompt delivery, and unparalleled customer satisfaction.

Backed by decades of experience and expertise in the tiling tools sector, John Tools has earned widespread recognition from businesses around the world. The company is regarded as a reliable partner and a symbol of quality, enthusiasm, innovation and customer satisfaction.

For every **5** tile cutting machines sold globally  
**1** was produced by **JOHNTOOLS**

## THE INAUGURAL DOMESTIC TILE CUTTING MACHINE MANUFACTURING FACILITY IN CHINA

## Lean Production Smart Manufacturing

The construction and configuration of the new smart factory maximally ensure adequate production capacity and supply capability, providing stable support for market demand.

INDUSTRIAL LEVEL TILE CUTTER

**Delivering industrial-level performance and maximum power.**  
**Designed for the intensive cutting of all types of ceramic and porcelain tiles.**

- Powerful braking system up to 1200 kg, operable with just one hand.
- Precise cutting with smooth slider (linear bearings inside )movements.
- Large cutting capacity, up to 18mm thickness, ideal for large-format tiles.
- Robust and detachable structure for high strength and easy transportation.
- Excellent braking system performance, providing clean and smooth cuts.
- Durable base, guide, and braking system.
- 80cm adjustable gauge for fast and accurate 0°-60° angle cutting measurements.
- Adjustable lateral stop for repetitive cuts.
- Spring support base for stable tile placement.
- Patented lockable break bar for visible cutting performance.
- Easy to transport, with rubber wheels and a handle.
- Includes 22mm extreme scoring wheels.

# TQ1B-8102G-T3

Delivering industrial-level performance with unmatched portability, user-friendly design.

Designed for the intensive cutting of all types of ceramic and porcelain tiles.

Features a detachable support system for large-format tiles and easy carrying.

Constructed with high-quality steel and alloy, the machine's structure is optimized for precise cutting.

Accuracy within 1.0mm, suitable for tiles 4mm to 16mm thick.

Ergonomic long-reach handle delivers enhanced leverage and effortless operation.

The high-quality 22mm cutting wheel offers long-lasting performance.

The fully enclosed, dust-free design requires no adjustments

The portable support system with screw positioning allows for easy installation, while the movable wheels enable convenient transportation.

An infrared laser enables even more precise cutting,

and the diagonal positioning device makes it suitable for diagonal cutting tasks.

Patented lockable break bar for visible cutting performance.

Powerful industrial-grade performance in a lightweight.  
Designed for the intensive cutting of all types of ceramic and porcelain tiles.

Patented lockable breaker with plastic protector ensures better visibility of the scoring and cutting zone.

Ergonomic soft-grip handle for comfortable, fatigue-free operation.

Robust yet lightweight aluminum base for supreme portability.

Includes 2 extra extension feet - easily handle oversize tiles.

Reinforced guide ensures exceptional bending resistance and precision.

Precision 80cm adjustable gauge enables fast, accurate measurements.

The guide system is highly resistant to impacts, resulting in longer product life.

## TYF-DB-3

- Cutting thickness ranges from 4mm to 12mm.
- Designed specifically for cutting large formate slabs.
- Convenient TILER carrying bag for storage and easy transportation.
- Extended ergonomic handle for comfortable and effortless operation.
- Crafted from premium aluminum alloy, ensures lightweight construction and convenience.
- High-quality bearing wheels enable cutting lengths up to 2000 meters and facilitate easy replacement.
- Built-in suction cups on the guide rails eliminate the hassle of attaching separate suction devices, providing secure adhesion to the material being cut.

150x20x30cm

## TYF-DE-125X

- Includes 125mm & 115mm Diamond disc.
- The manual cutting system can cut up to 12mm.
- The electric cutting system can cut up to 25mm.
- Double dust reduction/ control system. Dry and wet cutting.
- Comes with a TILER carry bag for easy storage and handling.
- Switch with safety lock. Prevents unintentional start-up. Electrical cable with PRCD.
- The cutting head is height-adjustable and hinged, allowing for angles ranging from 0° to 48°.
- Comprising 3 assembled extruded aluminum guides, this system enables flawless scoring in large format tiles up to 360cm, resulting in precise and smooth cuts.

# TYF-DB-TB-3/1800

# TYF-DB-TB-3/3600

- Rigidity high-quality aluminum profile.
- Multi-functional, can be used as a versatile workbench.
- The leveling feet contribute to the increased stability of the set.
- Comes with a durable TILER nylon bag for storage and transportation.
- Customization options are available for the table surface's anti-slip feature.
- Fast and easy assembly and disassembly with a convenient fixed connection system.
- The extra-reinforced aluminum bars give the Slab workbench a lightweight, high rigidity, and great stability.
- The separation of its 12 aluminum bors allows the user to make perforations and cuts without fear of damaging the table itself.

# TPZ-K03

VACUUM SUCTION CUP

Automatically turn on/off pump  
 Durable nitrile rubber  
 Diameter : 210mm/8  
 Load capacity : 200kg  
 2 detachable 2\*1200mAh Li-ion batteries.  
 With pressure gauge for safe indication.  
 Suitable for smooth and rough tiles.
